SURF LEX

Sunón

Surflex panels offer building block assembly.

Surflex is a new paradigm in systems furniture – less of a panel system and more a set of building blocks that users can configure at will.

Each section is a block that users can easily fit together to build a solution in the size and style of their choosing. Even overhead storage cabinets can be quickly moved as needed.

Create a bench ...

... or a shared workstation

... or an office space

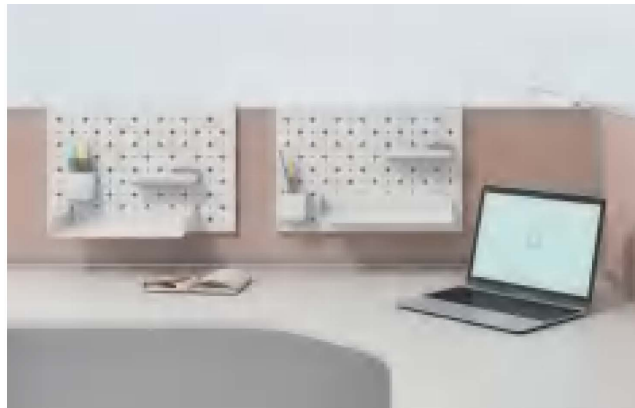

... or add a collaboration space

Smart options

Surflex's desktop is designed with a groove on which you can mount a computer monitor stand.

Peg boards can be mounted on the panel for organized storage to free the desktop for increased efficiency.

Screens mounted on top of the panel to provide extra visual personal privacy. The frosted screen is semi-transparent allowing light through while still offering privacy.

Add freestanding or screen-mounted storage.

Quick and easy customization

No need to call Facilities. With Surflex, you can reconfigure your space in a matter of minutes.

Switch your panels among glass, metal, acrylic, fabric, laminate and whiteboard.

Create panels as high or low as you wish.

Top with screens for additional privacy, or add overhead storage.

Choose from 3 styles of leg, or height-adjustable.

Imagine the possibilities

Upholstery material
