

C6

Designed with ergonomics at its core, C6 offers two styles to suit different work rhythms: a Nap Model with low armrests for comfortable midday breaks, and a Minimal Model with clean lines that maximizes seating capacity while saving space. Choose the style that fits your workflow and enjoy comfort in every moment of the workday.

Features

- Ergonomically balanced seat depth and height allow comfortable clearance at the knees, helping your legs rest naturally from the moment you sit.
- Zoned foam construction pairs different densities to deliver targeted support for your shoulders, lower back, hips, and legs.
- Nap Model: 0.39in low-profile armrests align naturally with the cervical curve, while A-grade latex padding provides breathable comfort for midday rests.
- Minimal Model: A more compact overall footprint makes it ideal for executive offices or commercial apartments where space efficiency matters.
- Three upholstery options – leather, water-based leather, and linen-blend fabric – offer easy coordination with a wide range of interiors.

0.39in Armrest Support Comforts the Cervical Curve

Zoned Cushioning Stays Comfortable Through Long Sits
