MIXBLOCK

FROM GRAIN TO FORM

Inspired by a single grain,
MixBlock combines rounded silhouette with a
sturdy steel frame. Compact yet strong,
it defines space with presence-more than just a
divider.

A HYBRID WORKSPACE ECOSYSTEM

MixBlock supports multiple work modes, enabling both focused tasks and collaboration within the same environment. Its modular design creates distinct zones that flow together naturally.

THE ART OF SPACE

Minimalist lines and gentle curves create a sense of balance and flow. Light plays across the forms, bringing order and elegance to the environment.

THE VERSATILE CUBE

Adaptable to any setting, it can be arranged in stepped or equal-height configurations, with 2, 3, or 4-level options, creating ever-changing spatial compositions.

AN OPEN THIRD SPACE

Not a wall, not a screen. Open by design, it lets the space flow freely and encourages natural interaction.

A HUB FOR SHARING

Thoughtfully positioned, it organizes shared resources and highlights team achievements, fostering collaboration and trust.

A GALLERY FOR DISPLAY

Flexible and modular, it highlights magazines, décor, and keepsakes, bringing both style and personality to the space.

THE PALETTE OF EMOTION

Colors define the mood of the space: fresh green for calm and creativity, vibrant orange for energy, airy white for lightness, cool black for focus, and mocha for balance.

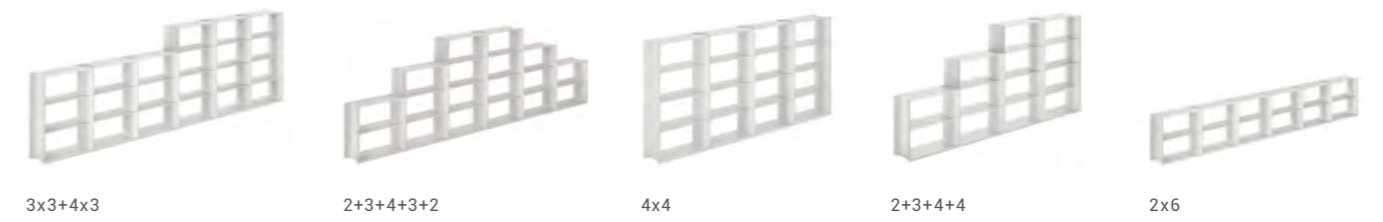

Note: The structural beams shown in the illustration are custom-colored.

Curves and straight lines set an artistic tone, colors convey the mood, and modular configurations let the space evolve naturally. MixBlock brings warmth and vitality to the office.
