CAKES

Share, Innovation, Cakes

Sharing sparks connection and new ideas.
Inspired by the joy of sharing,
Cakes brings warmth and flexibility into the workplace.

Embracing curves create closeness,
lightweight forms reduce distance,
and modular combinations unlock new possibilities.

Every seat becomes a place where conversations begin
and ideas take shape.

Every Posture, Every Possibility

Freedom of movement inspires freer thinking.
Whether sitting upright, turning sideways, relaxing, or standing to share, Cakes
adapts to every moment of collaboration.
A single seat transforms into a dynamic corner for ideas and connection.

Lightweight by Design, Ready for Every Idea

Easily carried with one hand, Cakes allows people to join conversations naturally without disrupting the moment, creating more space for new perspectives and ideas.

Only 1.6kg, Ready When Inspiration Arrives.

Gather, Scatter, Transform

Used individually, Cakes creates flexible seating for conversations anywhere — from lounge areas to workstations.

Stacked together, its mortise and tenon structure turns multiple stools into a stable presentation platform without additional accessories.

Flexible in arrangement, limitless in possibility.
