UP 1 II

UP1

In a post-pandemic era, modern employees' daily lives have experienced subtle yet conspicuous changes. Go to work by bike, practice yoga during a break, stand up and walk around frequently… today's employees care about their health more than ever before. In fact, a sit-to-stand campaign is simmering.

As an executive, Richard used to live a sedentary life. Now, he prefers to talk to employees while standing up; beside a dual-desk set, a document was passed to Tom and got stamped instantly; Lucy, who sits in front of an L-shape desk, got inspirations after doing some stretching exercises; Amber, who suffered a lot from neck pain before, found herself quite obsessed with the lift desk.

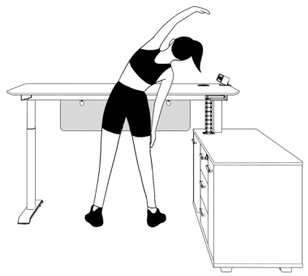

Alternate Sitting and Standing:
A Healthier, Customized Height for a New Era of Work.

Fix Sedentary Working Style

Sitting for long periods is a common challenge in today's work environment. The UP1 desk is designed to balance health and productivity, allowing you to switch effortlessly between sitting and standing, so you can stay fully engaged and focused at work.

Healthy Working with Sit-Stand Flexibility

The desk height adjusts from 27.5 " to 49 " to accommodate users of different heights. Each adjustment isn't just about changing your position from sitting to standing; it's about resetting your work posture and giving your brain a refreshing break.

Connected with the App

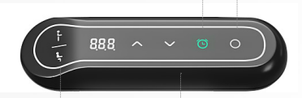

Download the SUNONLINK to track your health data in real-time. Get reminders to move and avoid the downsides of sitting too long. Make active, healthy working your new normal.

Hand Controller for Easy Height Adjustment

Sit-Reminder

Set reminders for every 30/45/60 minutes to encourage breaks and movement, promoting healthier habits during work.

One-Touch Reset

With just one press, you can adjust your workstation to 750mm at the end of the day. Keep your office space neat and organized.

Smart Memory

It is easy to switch between sitting and standing heights with one press.

Auto Sleep Mode

Simply touch the controller to wake up the screen. It automatically turns off after 10 seconds to save energy and prevent accidental touches.

Smart Analysis for Workspace Management

The advanced sensors accurately track workspace usage. The data helps designers or managers to make better space diagnostics and space planning. Tailor your experience with customizable features for comprehensive service.

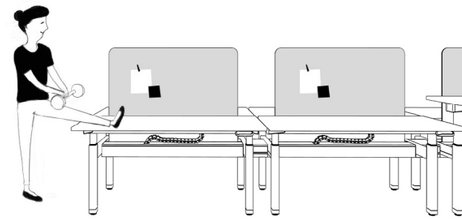

Spatial Awareness

Data Twins

Informed Decision

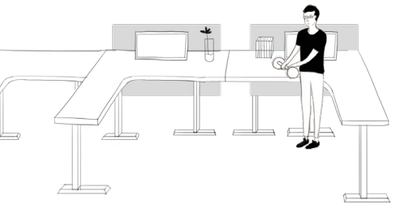

Desk Dividers: Focus and Productivity

In the workplace, employees are part of a team but also need individual focus. The desk's privacy screens help reduce visual and noise distractions, creating personal boundaries so you can focus on your tasks.

L-Shaped for Flexible Team Collaboration

As business operations evolve, communication, teamwork, and idea-sharing become increasingly important. The larger desktop space, with flexible configurations like U-shaped or cross-shaped setups, allows teams to adjust the layout as needed. The UP1 desk is the ideal partner for any dynamic workplace.

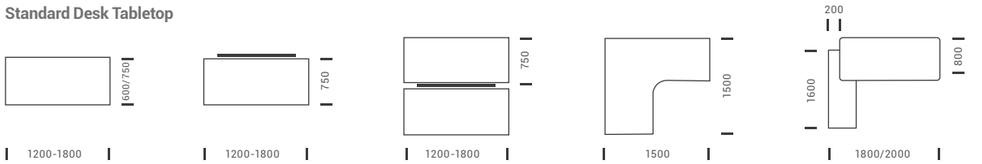

Ideal Cable Management for an Organized Workspace

1. Cables are hidden through floor-to-desk columns, keeping your workspace tidy.
2. Choose between side-access power outlets or install up to three 86 outlets in the provided slots.
3. Use the cable snake to manage cables, ensuring your desk is always organized.
